MS - Monday to Saturday only

Travelling by tram

Arriving at Blackpool North by train? You've now got convenient connections from train to tram! Making your regular commute or just travelling for leisure? You can still expect the same great service from end to end.

Trams run every 15 minutes between Starr Gate and Fleetwood Ferry via Blackpool North Station.

At North Station, how will I know which tram to catch?

We've got two platforms that our trams stop at, and our conductors will be on hand to guide you to the correct platform.

Once you've set off from North Station, the tram will either be going to Fleetwood or to Starr Gate, so it's important to check you're on the correct tram. You can check the destination display on the front, side, and back too, which show where you're going.

Need a hand?

We've got plenty of support on hand if you need help planning your journey or choosing the right ticket! Use the Journey Planner on our app or website to plan your trips and track your steps along the way.

Ask one of our conductors for a helping hand - they'll point you in the right direction.

If you need to get in touch with us, you can use the contact details on the back of this leaflet.

Our trams are wheelchair and pushchair accessible with level boarding...

WHEELCHAIR USERS

Wheelchair users have priority use of the wheelchair spaces on our trams, as this is the only place in which wheelchair users can travel safely. We urge our customers to offer their cooperation in making the wheelchair space available when required.

MOBILITY SCOOTERS

We agree to carry Mobility Scooters in our designated wheelchair spaces entirely at the conductors discretion. We will only accept class 2 scooters that are no more than 600mm wide and 1000mm long with a turning radius not exceeding 1200mm.

PUSHCHAIRS

Unfolded pushchairs can usually be accommodated on our trams. The number of pushchairs we can carry is at the discretion of the conductor onboard.
